Dear Sir

I rec'd your letter enclosing $ P. on which shall be acknowledged in due course —

I have written Leon Lappan all about the proposed union of the W I M Committee with the Union Society, giving the reasons &c for I do think it will not be best until we have a Secretary who can devote his whole time to it, as he has more than he can attend to without increasing his duties, do confer with him about it —

Mr Kirk has abandoned the plan of going to Palestine, finding he had not time to get back in season for the convention —

Tracy was in my store the other day to get tools to fit up a Saw mill to send to Africa, he is the factotum for the Colonization soc in this State & I presume receives $10 or $1200 per annum as he does no other business at present — he edits the periodical &c —

If you do not go to London, (I wish you might) I hope you can be of some service
